## Welcome to Subliminal Club

## 2. How do Subliminal Club products work?

Our subliminal products may seem mysterious to some people. But this section will explain them clearly.

Imagine it like having a powerful healer and a hot cheerleader in your life at the same time.

The healer discusses your limiting beliefs with you, goes deeper and deeper into your issues until your thinking patterns change and the problem doesn't exist anymore. But only in the ways that are right for you.

And the cheerleader is a very hot girl who looks at you with loving eyes, and tells you "you're awesome!", "you're amazing!" "what you did there, you should be so proud of that!". And she tries to get you more and more in contact with what you truly want in life, and to get what your heart truly desires.

The issue is: to benefit from the healer and the cheerleader, your subconscious checks first to see how your conscious mind reacts to them before it decides.

If you try to deny or avoid changing your limiting beliefs, the healer cannot get very far. And you might sabotage any success by distracting him or yourself into useless tangents.

And the cheerleader, whenever she says something good, your conscious mind might automatically think "Yeah right," or "I got lucky," or "If I were so good, why don't I have X, Y and Z?" or "That's a lie right there".

What we do is we have developed some powerful scripting technology to deliver the positive messages in our products directly into your subconscious, without having your conscious mind criticize them first.

Our scripts will reach your ears and vibrate them in exactly the way normal words do. However, we have placed our scripts at a frequency that vibrates your ear, but your conscious mind cannot hear.

Does this seem too good to be true? Then consider this:

Imagine you're sitting in a coffee shop, browsing online, totally focused, with people chattering nearby. Your conscious mind can't even hear them, it blocked them out.

Then, suddenly, one of those people mentions your name in passing, and your ears perk up, your "spidey sense" tingles, and you look around, your attention was grabbed.

Answer this: Who was listening and processing other peoples' conversations when your conscious part was busy doing something?

It was the subconscious. It hears everything.

And that's why our products work: Our subliminals vibrate your ears in the same way that audible words do, but since your conscious mind cannot hear them, that communication goes directly into your subconscious.

Your subconscious then processes the ear vibrations, it translates them into meaning, and when it checks with your conscious mind, it finds you're not rejecting what is being heard since we're not trying to force anything into you like our competitors do, and so your subconscious takes our positive programming in and integrates it deeply.

**Important:** what makes Subliminal Club products superior over others, and it's the reason why we're the hottest, fastest growing subliminal producer, is that our scripting doesn't try to force you to change in any specific way.

Our competitors try to force their idea of what it means to be "Alpha" or "Creative" or "Successful" or "Healthy" or "Attractive". And this causes MASSIVE and painful resistance because you are fighting against what your subconscious might think is the best way, and often the results don't last after using their products.

With our superior technology, we have focused guiding your subconscious to question the beliefs that don't serve you anymore, and to integrate the positive programming we provide in the best ways that your subconscious knows will serve you, and that will end up in your best interest as you become naturally the best version of yourself.

That is why any reconciliation is minimal, and any discomfort is no more than the natural part of the normal process of change, growth, and transformation.

It is safe. It is ecological. It works for you to guide you into becoming the best version of yourself in the ways that you truly want, and not in any way chosen by any person other than yourself.

With Subliminal Club, you are guided by your inner guide into becoming your **Best You**.

*Our member JCast said: "The main thing that I feel makes Subliminal Club so unique and special compared to their competitors is the fact that their scripting isn't meant to try to push their personal beliefs on you. Who and what you become is entirely up to you."*

### 3. How soon can I expect results, and will the results stop if I stop listening?

The best way to think about using subliminals is like working out in the gym.

You go do your workouts, and right after, you feel a "pump": your muscles feel stronger and tighter, and you feel on top of the world, unstoppable.

But that's a short-term effect. The real long-term body change come from working out for weeks and months. Then, your own body becomes naturally stronger, and if you stopped working out, you keep some of that increased strength a baseline.

Subliminals work in the same way:

When you start using a subliminal, you'll see fast results. Those are good. Enjoy them. But realize they are the "pump" phase. You're seeing results that keep you motivated, but the changes do not become permanent instantly. That's not how real growth happens.

Then, while listening to one of our subliminals, you'll get a boost in effects from this "pump" feeling...

At the same time, the longer you stay on track... the longer you listen... the more hours you put in... the more you try to take some action... the more your subconscious will integrate the changes permanently...

As our member LaughingPrince described how it feels to start using our subliminals:

*"The best way I can describe it is that it's smoothing out the path to getting what I want. Mentally I feel a calm, confidence going forward. The best sensation for me is that my mind isn't stressed out about taking action anymore. I don't feel overwhelmed, I don't feel like things are difficult, all I feel is an assurance that I should keep on doing things that improve my life. Things are looking very good so far "*

## 4. What's the best way to use subs?

We have tested many different ways to use our products...

And we have a forum filled with satisfied customers testing everything we produce, and providing detailed journals and results...

Over time, a pattern for best use has emerged. And we share it here.

First, make sure you have any kind of speak that can reach 16kHz to 20kHz audio range, or use your modern smart phone.

Second, test your setup:

- Download the subliminal test file here – [https://s3.amazonaws.com/freesubs/20-20k\\_Audio\\_Test.mp3](https://s3.amazonaws.com/freesubs/20-20k_Audio_Test.mp3)
- Use a good quality modern audio player
- Use an app such as FrequenSee to measure the volume of the file
- Adjust to make sure you're playing it at above -80dB. Most of our users aim at -40dB to -50dB. That is a safe volume to use.

Third, plan how long you will be able to listen.

We recommend a set-and-forget method - which means you let our subliminal products play near you as much as possible for maximum exposure.

Fourth, create a journal to document your journey and your results.

Every little change you'll notice will guide your subconscious towards more and more transformation, and it reminds you that this process is working.

People don't notice incremental changes; they aim for huge sudden transformations. But the lasting changes happen 1% at a time. Without keeping a journal, you will not notice what is changing, you will not be able to adapt, and you may think you're not progressing while you really have changed a lot.

Finally, action.

There is no substitute.

Our products make it easy for you to take action, but you have to help yourself succeed: take any steps, even small steps, towards your goals, and let your subconscious guide you towards the rest.

This is not a passive process where you sit at home sleeping, and a million dollars gets drops into your mailbox, and a gorgeous top model knocks at your door wanting to be yours.

To manifest the life you want, take some action, any action... start the process and get the ball rolling.

To summarize: The formula is Listen + Journal + Act = Transform

The subliminals will be your greatest guide and helper, but you have to take action to show your subconscious you are serious about the results.

*As our member Yardbird said: "Identify what you want to accomplish, pick the right subliminal, start listening and get to work. Subliminal Club products don't magically make you rich, smarter and have lots of sex, but they make it much easier to achieve those things."*

## 5. Why do I feel bad?

While the superior technologies in our products DO NOT create the kind of savagely painful and long-lasting resistance that some other subliminal creators' products can create, you may in some cases experience a mild process of reconciliation.

Reconciliation is the subconscious process of reconciling your current personal beliefs with the script's instructions. Since our subliminal programs are designed to question and challenge the subconscious instead of instructing it, your mind has no reason to "resist" the script.

Think of the mild reconciliation as a Detox for your subconscious. Detox is letting the toxins out, so it feels a little uncomfortable at first. But as your subconscious gets cleaned out from the limiting beliefs, and the powerful beliefs you install that are healthy for you become your normal, you will feel a surge of energy to take on the world, more happiness, and a stronger sense of being a better version of yourself.

It's very different from the harsh process of resistance that all other companies' products cause.

While other companies prefer to force your body and mind to resist until you either give up and return to your old self after wasting months if not years of your life trying to make it work (most likely), or become someone you can't recognize or maybe don't even like, at Subliminal Club we dig deep into your innermost individual core and pose questions that urge you to take action, leading to a powerful, all-encompassing betterment and healing that actually tackles the sources of all your problems, rather than simple symptoms.

*As our member Dragonborn advised about the reconciliation process: "Keep your head up high and your middle finger even higher."*

## 6. Why can't I sleep well?

About 20% of our satisfied customers have reported that in the first weeks of using any new subliminal product (from us or from competitors), they sleep less than usual.

This often happens when they let the subliminals play at night to get more exposure, which is something we encourage.

To explain why this happens, let us say this:

Although subliminals cannot be heard, they are still pretty loud.

Imagine sleeping while letting soothing music play. To some people, that might make it less easy to sleep.

However, we have found that after a few weeks, people adapt to the subliminals, and they can sleep peacefully.

Then the question becomes: Is it worthwhile for you to have a few nights of bad sleep in exchange of a lifetime of success?

To us, that's a very small price to pay.

Plus, in our latest products, we have included modules and scripting to improve sleep, so the issue became much rarer.

After a couple of weeks, sleeping stabilizes, and you will sleep better knowing that night time is a time of reprogramming and recharging...

A time of becoming a better YOU.

## 7. Does it work if English isn't my native language?

Many of our customers aren't native speakers of the English language.

And all of them, without exception, see great results.

Why?

Because our technology is made in a way where we make sure your subconscious "gets" the positive subliminal messages. We use every angle possible, every creative way...

So if someone doesn't understand some "word," they will get the positive programming when another positive message is presented in different "words".

To summarize: If you can speak a basic conversational level of English, you will benefit immensely from Subliminal Club products.

We're not sure other companies can say the same. They seem to be on a quest to overcomplicate things with outdated, stagnant technology.

## **8. What if I listen to music or watch a movie while I listen to your products?**

That would be GREAT.

We have made sure our products work even better in this case... that when people listen to subliminals when they are in a heightened emotional state, such as listening to music or watching a movie, the effects become stronger, and the messages sink in even deeper.

So, if you're listening to any music that you enjoy while playing one of our advanced MP3 products, you're being even more productive.

And if you're engrossed in some fascinating movie, you're becoming a better version of yourself at the same time.

Enjoy your music. Enjoy your videos. Enjoy your movies. Enjoy your games. We made sure all of our subliminal products are 100% effective when played in parallel with anything else that affects you emotionally for superior results.

## 9. How many Subliminal Club products to use at once?

What is unique about our technology in the subliminal marketplace is that all of our products can work together symbiotically.

It's as if they automatically glue together and harmonize into one big sub that gives you the benefits you desire.

That is why we encourage experimentation and creating your own modular playlist with the Major Programs, Stacking Modules and Superchargers that fit your desired results.

However, the more Major Programs you include, the longer it takes to see significant transformations, because the scripts become bigger.

That is why we recommend a maximum of 3 major programs in 1 playlist, and 6 stacking modules.

However, a better and more focused playlist of 2 major programs and up to 3 stacking modules would provide even faster results.

We encourage you to experiment, to consider the priorities you have in your life, and to be the person in control of your playlist.

And if you need any help, feel free to ask on our forums:

## 10. Can subliminals help me get laid?

Yes.

As our member AMASH has recently written:

*"With PS Iron Throne, I am on another level: I have 3 amazing girls who are falling in love with me, sending me hearts and sweet things like that, and who can't wait to go on dates with me.*

*One is a 25 years old salsa dancer who just had an orgasm when I kissed her. The second is a 19 years old redhead that looks like Sansa from GoT, and who is a painter. And the third is a 20 years old virgin who dreams about me.*

*I personally cannot believe it."*

Or as Lee MDK said:

*"I switched to Primal Seduction about two weeks ago.  
Had sex yesterday!  
It was for the first time in 5 months.  
It was so effortless."*

So yes, whether you want a girlfriend, multiple girlfriends, or just women who are deeply attracted to you, we have choices than range from Primal Seduction...

Learn more about Primal Seduction here - [Primal Seduction](#).

To our highest tier, Khan:

Read about Khan here - [Khan](#).

As our member Friday said about Khan:

*"SEDUCTION BECAME SO EFFORTLESS. I don't even know what I do, do not, or do differently. I just have fun with a girl and then suddenly we make out.*

*I can do whatever. It is like the surroundings cannot dictate my state anymore. I have complete CONTROL."*

And consider using our Superchargers to add more power and punch to any of our subliminal product, such as:

Our most popular Supercharger [True Social](#).

And the legendary [Libertine](#).

Either way, we believe that a man has the right to love, sex, women, and a relationship if he chooses to.

And in Subliminal Club, we have effective products that will help you get exactly what you're looking for.

We never force any specific view or idea onto you. We let your subconscious help you choose what you will enjoy best, and what will make you truly happy in your sex life.

With NO LIMITATIONS.

## 11. Can subliminals help me get a job? Or start a business?

*Our Member OldChap said: "Spending the past few months solely on Emperor has gotten me where I thought I never would have gotten to."*

*My run of Emperor by itself started I believe in August, so it has been a few months.*

*This is what happened: I started a business that is providing me with a comfortable 5 figure income, and it is still growing.*

*I am comfortable with seducing women, and currently have multiple women in my life.*

*Ambition, drive, mentality have all improved dramatically."*

## **12. Why should I pay for subliminals rather than use free ones from YouTube?**

This question is easy to answer, but might be difficult to imagine, because people can't "hear" what is inside the subliminal product.

So, let's look at it from another angle:

How often do you find that "free" things are really high quality?

Even more importantly: Would you trust your subconscious messages, and personal transformation, to an unknown somewhere who uploaded a YouTube video with some random subliminal messages?

How much time, care, and crafting would that person dedicate to a free video they create?

It's important to be careful when it comes to your personal transformation.

We literally invest thousands of dollars, and hundreds of man hours into each single product we create, we check every single word, make sure every single sentence is the most perfect it can be, and that it will totally have only positive effects on the listeners.

This is why our customers are so satisfied, our reviews are so positive, and our reputation is stellar.

We vow to deliver the best products on the market, and we keep our promises. It is what we are known for.

So why use our products instead of the free stuff?

Simply because what we create works. And it works for you... in harmony with your own subconscious vision for what it means to be successful, to be alpha, to be social, to be attractive... in the ways that make you feel authentic, powerful, and fulfilled.

Try one of our products. You're covered by our 30-day risk free guarantee. The overwhelming success of our products speaks for itself.
